EMPRESTITO PARA LAS OBRAS Del Riachuelo.

La Comision Directiva de las Obras del Riachuelo, en cumplimiento del decreto del P. E., que se transcribe, fecha 29 de Marzo del corriente ano, reglamentando la ley del 26 del mismo por lo que se dispone de la creacion de fondos publicos de 6 o/o de interes y 3 o/o de amortizacion, por la suma de $f. 1,500,000 oro tiene el honor de invitar al publico a suscribirse al referido emprestito.

El emprestito sera dividido en tres partes por $fs. 500,000 oro cada una, on las condiciones de su reglamentacion, quedando cerrada la suscricion a la primera parte, imediatamente que sea llenado el capital que se ofrece.

En oportunidad se llamsra a la suscripcion para la segunda y tercera parte.

Queda abierta la suscricion a la primera parte, el dia 18 de Abril, en la Oficina de la Comision Directiva, casa de Gobierno Provincial, de 12 a 4 p m., todos los dias habiles.

Miguel N. de Uribelarrea, Presidente.
Domingo Parodi—Vice Presidente.
Juan Drysdale—Tesorero.
Leonardo Pereyra—Vocal.
Saturnino E. Unue— id
Ley y Decreto referentes.
El Senado y Camara de Diputados, etc.

Art. 1º El P. E. procedera a llevar adelante las obras de canalizacion del Riachuelo, disponiendo que se de al canal de entrada la profundidad de veinte y un pies ingleses en aguas bajas y una anchura de cien metros de fondo.

Art. 2º Para proseguir las obras en la forma que se dispone en el articulo anterior, autorizase al P. E. para contratar un emprestito por la suma de un million, quinientos mil pesos fuertes oro, ($f. 1,500,000) emitiendo fondos publicos de seis por ciento de renta anual y tres por ciento de amortizacion acumulativa que se verificara por sorteo y a la par.

Art. 3º El P. E. podra realisar este emprestito dentro o fuera del pais y hacer el servicio de su renta y amortizacion en el exterior.

Art. 4º El producto del emprestito sera exclusivamente empleado en las obras del Riachuelo.

Art. 5º Las obras existentes y las que se verificasen con el producido del emprestito, quedan afectadas especialmente al pago de su renta y amortizacion.

Art. 6º Destinase al servicio y amortizacion de este emprestito el producto de las obras realizadas y de las que se realicen, y si aquel no bastare, el deficit sera cubierto de rentas generales.

Art. 7º Queda facultado el P.E. para hacer verificar las obras por cuenta del Estado o contratarlas por licitacion publica con persona o empresa particular.

Art. 8º El P.E. reglamentara esta ley, hara los gastos que ella demande y los imputara a la misma.

Art. 9. Comuniquese al P.E.

Buenos Aires, Marzo 30 de 1881.

Considerando:

1º Que el Poder Ejecutivo ha sido autorizado por la ley de 26 del actual para contratar un emprestito por la suma de 1,500,000 pesos fuertes oro, emitiendo fondos publicos de seis por ciento de renta anual y tres de amortizacion acumulativa y a la par.

2º Que ha sido igualmente autorizado para celebrar ese emprestito dentro o fuera del pais.

3º Que hay conveniencia para el Estado en que el emprestito sea interno, tanto por el objeto a que se destina, que es para pago de materiales y obras a adquirirse en su mayor parte y realizarse dentro de la Nacion, cuanto porque debe estimularse la colocacion del capital del pais en la realizacion de obras de interes comun y de grande trascendencia para su engrandecimiento y fomento del comercio, como son las obras de canalizacion del Riachuelo.

4º Que el P.E. tiene fundados motivos para esperar que este emprestito pueda realizarse en terminos equitativos y ventajosos, por cuanto ciudadanos distinguidos por su patriotismo y fortuna, consultados al respecto, le han ofrecido su cooperacion y ayuda—el P.E. acuerda y decreta—

Art. 1º La Junta del Credito Publico procederá a emitir fondos publicos de seis por ciento de renta y tres de amortizacion anual, hasta la suma de 1,500,000 fuertes oro.

Los titulos seran firmados por el Ministro de Hacienda, Contador General de la Provincia y Secretario de la Junta del Credito Publico.

Art. 2º Estos titulos seran entregados por el Credito Publico a la Comision encargada de las obras del Riachuelo a medida que estos los pida.

Art. 3º El servicio de la renta de los titulos y su respectiva amortizacion, seran hechos trimestralmente por las Oficinas del Credito Publico en los diez primeros dias de los meses de Enero, Abril, Julio y Octubre.

Art. 4º Los productos de las obras se depositaran diariamente en el Banco de la Provincia, en cuenta corriente, bajo la denominacion "Fondos del Riachuelo para el servicio del Emprestito, a la orden de la Junta del Credito Publico."

Art. 5º Cada trimestre liquidara esta cuenta y si las cantidades aumentadas no bastaren para el servicio del Emprestito, la Junta de Credito Publico p dira al Gobierno el deficit que sera cubierto de rentas generales.

Art. 6—El P. E. podra destinar mayor suma para la amortizacion por sorteo y a la par, si lo estimase conveniente.

Art. 7—La Comision Directiva de las Obras del Riachuelo queda encargada de la colocacion del Emprestito.

Art. 8—El Emprestito sera ofrecido a la suscricion bajo dos formas distintas—

1 El suscritor podra pagar inteirnamente el importe de la suscricion, recibiendo su equivalente en titulo del emprestito al portador.

2 El suscritor puede pagar el importe de la suscricion en diversos plazos, sujetandose a las siguientes condiciones.

a) Los suscritores pagaran sus cuotas en ocho partes; la primera al contado y las restantes por trimestres, verificando las entregas respectivas de cada trimestre.

b) Los titulos pertenecientes a la primera cuota quedaran en poder de la Comision y como garantia unica del cumplimiento de la suscricion en los plazos a vender. En lugar de estos titulos se entregara al suscritor un recibo nominal que podra ser trasferido, pero sujeto a caducar y perderse su importe por el tenedor si no satisfaciese las cuotas a vencer en los plazos fijados y que se indican en el mismo recibo.

c) Desde la segunda cuota en adelante se entregaran a los suscritores los titulos al portador que correspondan al equivalente que hubieren abonado.

d) Al verificar el pago de la ultima cuota se entregaran los fondos publicos correspondientes a la primera, reservados como garantia en cambio del recibo correspondiente.

Art. 9—La amortizacion se hara en proporcion a los titulos pagados por los suscritores, con arreglo a lo dispuesto en el articulo 2 de la ley.

Art. 10—La suscricion del emprestito sera ofrecida al tipo minimum de 90 por ciento de su valor nominal.

Art. 11—Queda facultada la Comision de las Obras del Riachuelo para pagar, en caso que fuere necesario, hasta el uno por ciento, a uno o unos corredores por corretajas de colocacion.

Art. 12—Todo el producido del Emprestito sera depositado en el Banco de la Provincia, en cuenta corriente, a la orden de la misma Comision encargada de las Obras del Riachuelo.

Art. 13—La Comision solo podra disponer de esos fondos para pagar el importe de las obras que se mandan continuar en el Riachuelo por ley de 26 del actual. En ningun caso podra la Comision disponer ni entregar esos fondos para otro objeto.

Art. 14—Comunique, publíquese e insertese en el R. O.

Al Publico

P. DILLEMANN y Ca., para evitar juicios erroneos en el asunto de la marca PESCADO, hacen constar:

1º. Que sacaron en el año 1874 Patente por la marca PESCADO en Francia.

2º. Que sacaron Patente de la marca PESCADO en el año 1876 en la Republica Argentina en toda forma para los articulos de FERRETERIA y CUCHILLERIA que acostumbran introducir en este mercado, como marca de COMERCIO y de FABRICA, la cual les fué concedido para SU USO EXCLUSIVO. La Patente fue publicada durante un mes en los diarios, segun lo prescribe la ley, sin que hubo alguien que hubiera protestado contra ella.

3º. Que habiendo sido introducido una imitacion y falsificacion de su marca, acusaron criminalmente la casa que habia cometido este delito, la casa en cuestion, los Sres. Mantels y Pfeiffer, fue condenada y la sentencia publicada en los diarios por cuenta de ella.

4º. Que recien durante la tramitacion del proceso la casa de Mantels y Pfeiffer busco hacen valor la patente de un fabricante en Francia a la Carpa, y pidio su registracion para Coutaret Denise y fils, la que les fue negada por la oficina de patente por ser PROPIEDAD EXCLUSIVA de P. Dillemann & Co. en la Republica Argentina, como marca de COMERCIO, y de FABRICA.

5º. Por ultimo recurso se dirigio la casa de Mantels y Pfeiffer al ejecutivo en apelacion para obtener el registro de la marca Carpa, y el Exm. Gobierno ha tenido a bien, concederles parte, de lo que es PROPIEDAD NUESTRA, adquirida en toda forma, como lo prescribe la ley.

6º. Al fin diremos, que todos los ferreteros que vienen a nuestra casa, saben que si la marca Pescado ha adquerido una cierta fama es porque hemos trabajado durante muchos años, a espender los articulos de esta clase en la mejor calidad.

En cuanto a las apreciaciones, que ciertas personas se han permitido hacer de nuestro modo de proceder, no hay necesidad

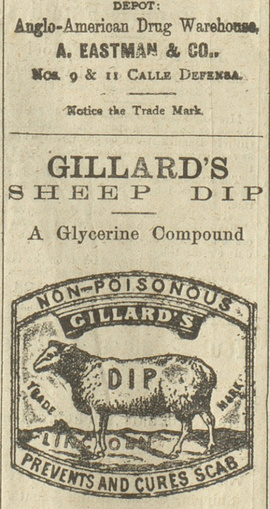
GILLARD'S SHEEP DIP
A Glycerine Compound



This Dip is most carefully prepared by the latest improved methods and can be used with
COLD WATER
Supplied to the Prince of Wales's Farm at
SANDRINGHAM
Professor Kyle reports as follows under date April 13th, 1881—
"After a careful analysis I can confirm the statement made by the manufacturers that this preparation is entirely free from Arsenic or other mineral poison. The Dip contains neither soap nor caustic alkalies. As is well-known, the use of the former in the preparation of Sheep Dip is attended with the inconvenience that the employment of the hard waters so common in the country causes their decomposition and leads to the separation of the oils in the bath, whilst the latter injures the wool and renders it harsh. In short I consider Gillard's Sheep Dip to be a good article, free from mineral poisons, deadly to all parasites of the Sheep and other domestic animals, a CERTAIN PREVENTIVE AND CURE FOR SCAB and when applied according to the directions in no way injurious to man or the Sheep."
NOTE—A sample drum will be supplied gratis to any Estanciero who is willing to give the Dip a fair trial and report on same.

HAVAS' AGENCY

Rome, May 3rd

Deputies to-day reversed vote of 3rd April which upset the Cairoli Coach, and passed a vote of confidence in his Cabinet.

OPENING OF CONGRESS

The session of the Argentine Congress which begins to-morrow is in every way likely to prove almost as momentous as the last, which settled the Capital Question, and thereby at last put the Ship of State on a new course, the course intended by the heroic founders of the nation, which should never have been deviated from, and which the present 'man at the wheel' will certainly steer, straight as an arrow.

There is no concealing the fact that the public look with unusual interest, perhaps not unmixed with anxiety, for President Roca's Message. There is so much to be done in the way of National legislation, and H.E. has such a wide field to go over, that the public eagerness for the Chief Magistrate's opinion as to how the country is progressing, and what its future prospects are, is easily explained. The change that has come over this country since May of last year is apparent enough; but it may fairly be doubted if even the most far-seeing of the Legislators who resume their seats to-day in the National Hall of Sessions dreamt last year, when enacting, in the midst of rebellion and disorder, the laws that saved the republic and gave it a new future, that the result would be so great. Even the best friends of the country did not expect to see such astonishing recuperative power in the people. But such is the River Plate.

This remarkable recuperative power, so often noticed at previous periods of the nation's history, may well inspire its Parliament with almost unbounded confidence that sound and well-matured measures for the public good are certain to produce their utmost fruition. At the present moment the public ear is undoubtedly fastened on what is, in every land under the sun, the key-note of a nation's prosperity: sound financial administration. The mere financial position of the country, as far as paying its way, is as sound as it can be, but so long as its trade and industry have to bear the odious and ever-shifting burden of an inconvertible paper emission, and the ruinous jumble of currencies prevalent in the Interior; so long as the anomaly of privileged banks and other monetary absurdities are allowed to eat into the heart of its producing powers, all the railways we can build in a century, all the emigrants that may flock here from Europe in the same time, all we can export, and all we can do to foster our production and industry will be utterly in vain. The people are now opening their eyes to this fact, and are unanimous in calling for two measures above all others—the abolition of forced currency and a thorough reform in our banking laws, with a uniform system of currency all over the Republic. We say, unhesitatingly that this should be the first subject taken up in this session of Congress: giving a preference to anything else whatever, would be simply to repeat the old and fatal error of beginning at the wrong end. 'Good finance is good Government,' says the present Prime Minister of England, the greatest living authority on the subject, and good finance is impossible without a sound banking and monetary system.

Next in order Congress should deal with the Immigration Question. In spite of the prodigious advance the country has made in this respect, the Government machinery for its development is most defective. We have an Immigration Department, and an Office of Lands and Colonies, recently established, but as yet neither one department nor the other has given us a comprehensive system such as is at work in the United States, and which has given such wonderful results. There are 40,000 leagues of unoccupied land in the country, yet when a few emigrants arrive in search of land there is a hurry-scurry scramble to know where to send them to. The National Government colonies, too, have proved the reverse of a brilliant success, and form an unpleasant contrast with the trio of Provincial Government colonies in this province. If we mean to keep the tide of immigration even at its present height, without talking of increasing it, a new and vigorous leaf must be turned over in this direction, and a liberal Homestead Law be put into immediate play. The Republic has so many competitors for immigration that its superior natural advantages will avail it nothing, if not backed up by energetic support from Congress and skilful use of its immense resources in the way of fertile land.

We will not refer to the numerous other matters which demand legislation, prominent amongst them being a radical change in our Judicial and system of administration, civil and criminal, as we honestly believe there is no chance of their being dealt with this session. There will be, necessarily perhaps, a deal of eloquence required to finally settle all the questions in reference to the capital, although they are, or ought to be, now purely matters of form and business; but, be this as it may, we insist that, for the best interests of the Republic, at home and abroad, the abolition of forced currency and the creation of a sound banking system have pre-eminent claims on the attention of the coming session of Congress.

APPALLING DISASTER.

The electric wires flashed yesterday from Montevideo news of a dire catastrophe that will sadden the heart of every British subject in the Plate. For a long time a more sudden or dreadful occurrence has not been reported. The ordinary dangers of a life on the rolling ocean and the hardships of a seaman's life are numerous enough, although in the Royal Navy the latter are reduced to the minimum consistent with duty; but when swift, sudden, awful destruction overtakes the brave men who 'go down to the sea in ships,' and especially that portion of them who are charged with the maintenance of the honour and glory of 'the flag that braved a thousand years the battle and the breeze,' a deeper chord is touched in every British heart than any other form of disaster has power to awaken.

The destruction at Sandy Point, by the explosion of her powder magazine, of H.M. gunvessel Dotterell, only recently arrived from Europe, leaves many a home, high and low, desolate in England to-day. In a single instant 143 men were hurled into eternity, the Captain and ten seamen alone escaping out of a full complement of 153 all told. Such a catastrophe will cause more sorrow and dismay at home than if the victims had perished with their face to the foe on his conquered deck, as there is, or used to be, an impression in the British public mind that, in the Royal Navy, the discipline and precautions taken were such as to render almost impossible such accidents as it is our sad duty to report to-day. Of late years this impression has received several shocks, but none so dreadful as that of which the waters of Sandy Point, in the Straits of Magellan, have just been the scene.

The following is the telegram, to our colleague *El Comercio del Plata*, conveying the sad intelligence,

Montevideo, May 3rd
9.40 a,m.

Brittannia arrived last night from Valparaiso, with Captain and ten seamen of the British gunvessel Dotterell, which blew up in the port of Sandy Point. Over 100 victims. The Captain is wounded.

10 a.m.

Explosion occurred at Sandy Point, at ½ past 10 in the morning. The powder magazine took fire and exploded, the bursting shells blowing the ship's sides clean open and killing the crew all over the ship. In four minutes she went down.

The Captain was taking a bath in his cabin when the ship blew up. In a few minutes after the explosion six mutilated corpses and pieces of arms and legs were found about, a truly awful spectacle.

The victims number 143, Captain Evans survives, also Purser Colbourn and the second engineer, the latter wounded, like the Captain.

The English people here are deeply affected. It is supposed that the explosion was caused by a tube bursting and setting fire to the magazine.

April 29th.

Once upon a time an itinerant mason, with his son, was travelling from place to place in search of jobs. One day they were passing by a gentleman's place, and noticed a few furlongs of the brick wall in a dilapidated state. Here appeared a chance for a job, so, hat in hand, the man knocked at the house of the owner, who happened to be a close-fisted curmudgeon, and who, after a great deal of haggling, made a bargain with the mason to rebuild the ruined wall. At daylight the next morning father and son set to work with such good will that by the evening the wall was finished. The father then said to the son.

"Jim, there is a high wind coming; you put your back well against the wall until I go in and get the dirty pay from the old miser."

The owner was surprised to see the work finished so soon and congratulated the workmen on their industry, but would only pay the wretched amount bargained for. Jim and his father made tracks, and they were scarcely out of sight when down tumbled the wall.

When I read of the wonderful progress they are making on the Andine Extension, I cannot help recalling to mind the story of the itinerant mason. We have had so many parallel cases in this country. We have been brought up to believe that experience was required for success in railway building. It is not because a man is an engineer that he is consequently capable of building a railway. One might with just as much propriety insist on a good book-keeper being a clever merchant. I do not know the person charged with the construction of the Andine line except by name. He may be a good engineer or poor one; but it certainly strikes me that the important extension of those splendidly built lines, the Central Argentine, Rio Cuarto, and Villa Mercedes, ought to be in more experienced hands than those of a simple manager of a branch line. I very much fear it will turn out another instance of penny wise and pound foolishism; and the more I hear of the suspicious rapidity of the progress of the works, the more I look forward with anxiety to the result. Again, the contracts for sleepers have evidently been made on the general false economy system, with untrustworthy persons. It is useless to touch that stale subject the Tucuman Railway; only we cannot help feeling sorely the undeniable fact that Mr Wheelright would have made another Central Argentine, with the same gauge, for the same money that the wretched narrow gauge has cost. The province of Tucuman presents us with a number of other instances of misspent money, due to the penny wise and pound foolish system, dashed with favoritism. Every bridge made by the National Government, except one, is destroyed. The one exception, of course under the supervision of Government engineers, was built in such a manner that the very river it was intended to span, became disgusted, and turned off to the left, leaving the bridge entirely located on dry land, to the great delectation of the passengers, who have to cross the river to reach it; that is if they have any curiosity to get upon it.

Another wretched instance of dilatoriness, ignorance, false eco-

conomy or favouritism, call it what you will, is the Rosario Port Works. Congress has sanctioned the outlay, and the Government would have had no difficulty in getting experienced and trustworthy contractors to commence the works. What is the result? It is more than a year since we have heard that a contract was made with people never heard of in the mechanical line or any other; some time after we are informed that they could not raise the guarantee required. A paragraph now and then, intended to keep up our hopes, appears in the papers, but as yet the primary investigations, measurements, examinations, specifications, &c., have not even been made out by the parties who are said to have secured the contract. A haphazard sum was fixed on, and, I suppose, was accepted by the Government as being the lowest bid, without the least knowledge of what the works will really cost, or any guarantee exacted as to the capacity of the contractors to fulfill their engagement. Will this be another case of Jim propping up the wall until the money is pocketed?

The *Razon* of Tucuman says, that on account of the numerous accidents that have occurred on the Northern line, the number of serviceable waggons is reduced to about half of their former number, which was not sufficient last year for the traffic. This year the quantity of sugar and aguardiente will be doubled, and the *Razon* remarks that it is doubtful if the rolling stock that has been ordered from Europe will arrive in time, and suggests that it will be necessary to put ox carts again into requisition.

Politics in Santa Fe are very much in the state the *Standard* delights in. Scarcely any one hears them mentioned. The papers are exercised to find the daily material for their columns. Our friend, Dr Iriondo, is the first man in the Argentine Republic who has managed to muzzle your great bugbear, Politics. While other Governors, like Macbeth, 'murder sleep,' ours has given the whole population of Santa Fe a soporific that will keep their political tendencies asleep for the next ten years at least. The question of National Senator only has the effect of making people yawn. We all know that the nomination is in the Governor's pocket and that he does not pay the slightest attention to outside pressure or indications. The name of that wonderful ex-Governor, Mr. Bayo, is put forward by some of his admirers. (There was a flower placed on the tomb of Nero!) Should this petted child of fortune gain the Senatorial chair, your lauded orators and financiers, your Mitres Pellegrinis, Igarzabals, and Rochas must hide their diminished heads. From his experience with the London and River Plate Bank he will be able to teach you some financial dodges, such as sending a posse of police and taking money out of a bank by force.

EDITOR'S TABLE.

The first news in town yesterday was of the saddest description, viz. the announcement that H.M. gunvessel Dotterell had been destroyed at Sandy Point by the explosion of her magazine, only the Captain and nine others surviving the catastrophe, 143 men having been blown into eternity in an instant. This terrible news caused a most painful feeling in British circles all day.

Congress opens to-morrow. There is great interest taken in what President Roca may say in his message. Everybody hopes that he will lay stress on the necessity of reforming the currency and enacting a general Banking Law.

The Equateur brings two days later news from Europe than the Elbe. The Grand Duke Nicholas, cousin of the Czar, has been arrested for political intrigues. The Centenary of Calderon will be splendidly celebrated in Spain. 3000 more people perished at Chios in the last earthquake. A fight at Sligo between the people and police; 3 shot dead and 32 wounded. In Mayo another, and two women killed. Socialist meeting called in London.

The *Prensa* gave a pleasant bit of news yesterday, viz, that Sr Lastarria is coming as Special Chilian Envoy, to arrange the Boundary Question amicably. Two ironclads the Huascar and Blanco Encalada, come with him, as a matter of form.

The mails by the Elbe announce the discovery of a most prolific gold region in British Colombia, but in a most out-of-the-way place. This won't prevent a rush of diggers to it, if it prove such a rich find as stated.

Mr William Martin and Professor Pressinger will read to-night, at the English Literary Society's Rooms, the papers they had prepared for the anniversary of Shakespeare's birth. Both gentlemen are so thoroughly at home in their subject that their intended hearers are certain of an intellectual feast.

The 'Pollinini mail' starts for Europe to-morrow in the Cristoforo Colombo. The bags will close at 1 p.m.

The 1st of the month generally brings a flood of reviews and periodicals, to say nothing of Kidd's Guia and Kiernan and Huss's 'Ganaderia' records. Yesterday we were literally enveloped in magazines—Mr. Quesada's "Nueva Revista de Buenos Ayres," the "Anales" of the Sociedad Rural, Dr Alberdi's work "La Republica Argentina Consolidada en 1880" (on sale at Rene's, 42 Peru) etc. It will take us a few days to get through so much intellectual treasure, so as to be able to express an opinion (little as it may be worth) on it.

We warmly salute our evening colleague *El Nacional*, on its attaining its 30th year. It is the oldest editorial head in the Buenos Aires 'Bus,' and we hope it may live for ever. It has the advantage of us by exactly ten years, as we were 20 years old on Saturday last, but have given over celebrating birthday, as people give over kissing or any other of the sweet customs of younger days. Embracing, however, is 'la moda' in this friendly country, and we send our esteemed evening colleague a brotherly 'scrunch,' wishing it long life and continued prosperity.

We are credibly informed that the fact of one of the owners of horses running at Palermo on Sunday not being admitted to the paddock, to see his jockey weighed, was owing to the fact of his not having procured the ticket necessary for the purpose, and not the slightest discourtesy was meant.

The funeral of the late Mrs John Brown, of Altamirano took place on Sunday last at Chascomus. The interment took place in the cemetery attached to the Kirk, the Rev. Mr Gebbie and the Rev Mr MacNeile officiating. The attendance was the largest ever seen at a funeral in Chascomus, every carriage in the town being engaged. Several friends from town also attended, showing the wide-spread esteem in which the deceased lady was so deservedly held. She only returned last year from a visit to her native land, Scotland.

From the *Athenaeum* of the 26th of March last we extract the following concerning the honourable distinction shown our respected astronomical Director of the Observatory in connection with his recent visit to Europe:—"The election of Dr. B. A. Gould, of Boston, M.S., who has been for many years Director of the Observatory at Cordoba, as a Correspondent of the French Academy of Sciences, in place of the late Prof. C. F. Peters of Kiel, so long editor of the *Astronomische Nachrichten*) completes the full number of sixteen in the section of astronomy."

There will be a grand naval review at Martin Garcia on Friday The weather is so cold that it would hardly be humane to ask a reporter to go out to describe the event.

Dr. Mariana Demaria is to be the new Director General of Provincial schools.

There was a terrific scare caused on the Flores Road on Monday evening by a 'perro bravo' that first nearly tore to pieces a telegraph boy who was leaving a message at Pres. Roca's, and then flew at an editor who was returning from visiting a friend. More fortunate than the boy, the editor defended himself with his hat, till some of the soldiers on guard at the President's house rushed out and drove the brute off. To save future trouble of the kind, the owner of the dog had it shot yesterday.

We perceive that some of our colleagues are artfully trying to throw the blame of the quarrels at Chuput between the colonists and the 'authorities' there on the Welsh settlers and the Commissary. It won't do. Mr Jones, the Comisario, is too well known for this. The plain fact of the matter is that 'subdelegados' and other petty officials like them are too fond of exhibiting themselves 'dressed in a little brief authority,' and Welshmen are very tough customers to try their airs on. Chuput is not the first, nor the twenty-first place in which these subordinate officials have given cause of complaint, and the Government is well aware on which side the fault lies.

THE LECTURE ON SYMBOLISM.

Dear Mr. Editor

You speak of me, in your paper of to-day, far more kindly than I deserve; but I trust that you will allow my Lecture to pass into oblivion.

I quite admit that my mistake in the choice of (what I thought) an interesting subject may naturally expose me to some ridicule in Buenos Ayres; and I accept very willingly and cheerfully the rebuff which was practically given me by the meagre attendance on the 31st ult. Let me plead, in mitigation of censure, that my appearance as a lecturer was the result of an earnest request from some persons whose judgment I am bound to respect—and that my sole wish was to do something, however feebly, 'pro Ecclesia Dei.'

Your obedient servant
Francis Smith.

B. Aires, May 3rd.

THE INVESTIGADOR

This fortnightly publication deserves a special mention, owing to its manifold merits as an interesting and scientific publication. A neat volume of 1880 has been printed, containing information on every subject. There are very many chapters on the British invasions under Beresford, Whitelocke and Auchmuty. Some documents relating to that period are in the original English, and anybody taking any interest in the movements of the British troops before Buenos Aires and Montevideo should get the volume. Aside from its historical interest there are some very deep and studied articles from the pens of the best informed men in the country, referring to every imaginable topic, exciting discussion. The queries from correspondents are most attractive and amusing, whilst they afford diligent search both to the antiquarian and the amateur. It is only in an editor's office that one can catch a glimpse of the immense literary development in B. Aires; pamphlets, brochures, digests, theses and reseña pour in unceasingly; one would really think that every man who can wield a pen writes down his ideas and reminiscences for the benefit of the public; the public do not seem to even know of their existence. Although some of them may not boast the treasured traditions and influential auspices of Mr Quesada's versatile Revista de Buenos Aires, they individually bear an original character which cannot be overlooked, and we seize this opportunity to congratulate Messrs Alsina and Osuna on the undoubted success of their Investigador.

The gold market opened hard for cash and weak for time; very few of the ring speculators care about buying ahead of the present month, as the news out is that Governor Rocha will at once push through the Chambers the consol law, which will enable the Provincial Government to pay off the Bank with the new Bonds; these Bonds will be at once sent to Europe and hypothecated at a low interest for an advance of five millions pats. gold, which with the gold the Bank already holds here, and in London will enable the Bank, perhaps, at the end of this year to resume its true position as the real Monarch of the market, and reopen the 'Oficina de Cambios'. All this seems to be on the cards. The matter is openly discussed on 'Change, and one party stated that when the Chambers pass the law he will sell gold for the end of this year at 26

In Cedulas nothing done, only one sale, Series B, at 92. The speculation in National Bank Shares robs Cedulas of many 'quondam' clients, still the stock, as an interest paying security, is in great favor.

In National Bank Shares the news is that the National Government pays the Bank one million pats. gold and withdraws from the Bank its milion of Treasury Notes; of course this is an immense gain to the Bank, which now discounts twice a week on its discount days from 2 to 3 millions at 9 per cent. They say on 'Change that when Congress opens one of the first measures will be to order all 'judicial' deposits in the Capital to be deposited in the National Bank. The speculation in the stock is not so strong as the pressure of small outside buyers to secure the stock cash. The heavy Bolsa speculators wish to see the price down somewhat in order to be able to enter the market and buy freely, but none can purchase any large amount of the stock except on time, and sellers 'descubierto' for the end of the month expose themselves to a very serious risk.

Gold at afterhours ruled very hard for cash, and for end of month at 28.65. Buyers cash 75.

National Bank Shares showed increased firmness, and one party offered to buy 500 shares for end of July at 90, yet there was not a single seller, which shows the very decided upward tendency of the market—this being the highest price offered for years, although it must be always remembered that all the original shareholders paid par and in gold, which is still very wide of the market rate. It is estimated that there are 30,000 shares in the hands of original shareholders, and who will not sell under what the stock cost them, namely, par gold. The sales at afterhours were very limited, as every purchase advanced the market; 300 sold for the end of June at 88, and afterwards 700 in various lots sold for end of May at 88. Many buyers offering for June; 200 sold at 88½, and at last 100 at 88½ at which price market closed buyers. As for cash, several brokers had orders at afterhours, but none could be filled.

Exchange was done at 49, and the rate rules so weak that we may quote the market now at 49 takers; 5.18 Paris, and 5.20 Antwerp.

The Central Station was as crowded to-day at 3 o'clock as the Euston Square Station, London. It is really incredible the passenger movements with the provinces now going on. The 3 o'clock train on the Campana Railway was crowded with passengers. Don Manuel Ocampo jr. and numerous others left for Rosario. Miss Del Viso, daughter of the Minister of Interior, and Mrs Fernandez left with others for Cordova; there were passengers bound for Tucuman, Mendoza, Santiago del Estero and even Salta. The movement with the Interior shows the business going on in the country, and brightly reflects the progress of the nation.

Dr Lucas Gonsalez leaves with family for England on the 15th inst. per R.M. Steamer to negotiate the railway to the Sta. Fe colonies, the Sta. Fe land business, and the Belgrano Tramway. Nothing is as yet known of the conditions and terms. Our readers may ignore the fact that the Belgrano Tramway yields per year about five millions currency; expenses about two millions.

We understand that the Brazilian Minister, Baron Goudin, has rented the palatial building, which cost Mrs Castro 5,000,000 m|c and was sold to Mme. Dorrego for 1,500,000 m|c. His Excellency is fitting up the house in magnificent style for his Emperor, Dom Pedro, who will soon visit the R. Plate.

The Vice-President of the Republic, Don Francisco Madero, it is rumoured has rented Mr Rodrigues's fine house in Calle Victoria.

Messrs Gaston Sansinena & Sons report the following:—
Since 15th to 30th April the following produce sales were effected:—
Salted Saladero Hides of this Province—

"The sales were—Costa wheat, $195-212, Salado wheat, 175-192, Rosario wheat, 198 and 203, Azul wheat, 180 and 190, and Patagones wheat, 188 per 9 ar. Three important sales from deposit were made at reserved prices."

Messrs. Oostendorp & Co., under date April 2nd, report the following about wool:—
Wool—
Imports, 6,200 bales R. Plate
Sales, 2,800 bales R. Plate
600 bales miscellaneous
Stock, 26,700 bales B. Aires
7,600 bales Montevideo
100 bales Entre Rios
6,300 bales miscellaneous.
A very fair amount of business has taken place during last fortnight at the established decline of 5.10c. on January quotations.
Importers decided yesterday that the second series of the Antwerp auctions would begin on the 20th April, quantities to be declared on 9th.
Quotations for B. Aires invoices averaging a 1st, viz:—
F.1.90-2 for superior wools, 34-36 o/o
F.1.70-1.75 for good to fair, 32-33 o/o
F.1.50-1.52½ for good average, 30 o/o
Fair to good Montevideo shipments averaging a 2d, 40 o/o yield, are worth about fs.2.05 to fs.2 10.

Scoured wools stand in at fs.5 for fair, fs.5 25c. for good, and fs.5.50 for superior 1st [washing and all expenses excluded].
The London colonial wool sales terminated on 24th March at prices equal on a average to opening rates, but which showed, however, yet 5 to 7½ o/o decline on December. The following auctions will begin on 10th May, and about 380,000 bales will be available for same.

DEATH.

May 2nd, the infant son of Philip Greenslate, aged two years.

Mrs S. A. Allen's World's Hair Restorer.

The Genuine only in Pink Paper Wrappers.

It cannot fail to Restore Grey Hair to its youthful Colour, Gloss and Beauty.

IT IS NOT A DYE

It ever proves itself the natural strengthener of the Human Hair.

THERE are two special qualities which determine and fix the superiority and excellence of Mrs S. A. Allen's World's Hair Restorer:—First—its prompt quick action, and the new growth, life, and vigour that it is sure to give to the hair, never failing by a few applications to Restore Grey or White Hair to its Youthful Colour, imparting to the hair a delightful aroma, fresh, delicate, and unchangeable in any climate. Second—its easy application without any previous preparation of the hair; without that sticky and disagreeable sulphur odour found and complained in other preparations. It never stains the skin or linen. It retrains the hair in any desired position, and is cooling and cleaning to the scalp.

Use no other Preparations with it, not even Oil or Pomade or Zylo-Balsamum

To Restore Grey Hair, Mrs. S. A. Allen's World's Hair Restorer is the best.

Because it is made from Choice Materials, and prepared with the utmost Care and Skill.
Because over Forty Years the Favourite Preparation, enjoying by far the Largest Sale, it must be the Best.
Because it Does Not Dye the Hair, but Strengthens it. Grey Hairs soon Disappear.
Because by its Gentle Tonic Action the Roots are strengthened—New Life, and Hair Natural Colour.
Because the Soft and Silky Texture of Healthy Hair follows its use.

THE HAIR

Its Beauty can be Restored and Preserved

"Beautiful Hair,
Nature's Crown, Luxuriant and Beautiful Hair."

It cannot truthfully be said that at any age, period, or condition of life the Hair can or should be allowed to take care of itself, and requires no aid to stimulate and maintain its growth

THE NEW CHURCH AT CLARA (IRELAND)

Clara, King's Cout. Ireland
April 4th, 1881

My dear Mr Mulhall

When in Ireland, we happened to meet here; we were speaking about a new chapel for this place, and the difficulty of building it. You kindly promised when you would return, to write up the subject in the *Standard* and open a subscription list for the purpose. May I remind you of your kind promise, it is not too late. You will do a great service to Religion and to the old land, and oblige me very much. There is not a penny to be got here. Archdeacon Dillon knows our case and will be delighend if you do anything for us. Pat. Gannon, a parishoner of mine, will help any way he can. I think all the Irish settlers will assist, it the way were only afforded them to join in the good work.

I am, my dear Mr Mulhall
Your very sincerely
J Corcoran

Clara, Kings County.

The grand new Church of Clara, after many and disheartening vicissitudes in its erection, will be opened for public worship on

I venture to say there is scarcely one spot in Ireland whose history is more interesting to the eclesiastical student, to the lovers of Ireland's early glories, or to those who sympathize with the later struggles of her children for faith and fatherland, than the little town of Clara, formerly of Westmeath, but now of King's County, It stands not far from the historic hill of Usna, where Bridget received the snow-white veil which has ever since been the emblem and the banner after which and under which Irish female purity and sanctity have walked, and been to this day the light of the western world. After her illustrious profession, as Dr Lanigan tells us, it was to Clara that St Bridget repaired, with seven or eight fair spouses of Christ, who, together with her, had forsaken the world and received the mystic veil; and at Clara she founded her first convent, and raised beside it her very first church.

The same unmatched historian, tells us how, in that first bright and fragrant morning of the faith of St Patrick, crowds of Irish virgins flew to Clara, like flocks of ducks, to seek Divine shelter and guidance under the rule of St Bridget. The choice she made of this place as the site of her first convent is a distinction which the Catholics of Clara have prized, and shall ever prize. It has ever since imparted to the village and to the neighbourhood a hallowed character. How many chapels—like that of Tighebridge or Bridget's House—were dedicated in her honour! How many holy wells, sacred to St Bridget, have clustered and bubbled around this first chosen and sacred spot! Where'er you go, 'tis haunted, holy ground! But if the lily of Irish purity was first planted, and its bloom exalted in this place, there came a time when the red rose of the martyr found here also a congenial soil. In the long, dark and dismal days of persecution—as history tells us—as the graveyards tell us—the pastors of Clara suffered innumerable persecutions from the priest-hunters, who abounded in this neighbourhood. Mass in those days—the Church and the Convent of St Bridget having gone down and been swept away—was celebrated for many a year on the Ery Hills. Well, thank God, the conventual and monastic glories of Clara stand revived and restored. We have the beautiful new convent of those Sisters of Mercy who go about with pearls on their fingers—the tears of the poor—and the Monastery of the good Franciscan Brothers, who, under vows of poverty, chastity and obedience, till the land, teach the school, dispense charity, and edify the people all around by the holiness of their lives. Yet, still has there been one great want, which my heart—albeit the unworthy pastor of Clara—has long yearned to supply, that ancient and venerable pile—the Church of St. Bridget—has never till now been worthily replaced. The days are darkening around me, and in this world I have but a short look-out. Yet, if God spares me to see the beautiful new church of Clara opened, and freed by the generous bounty of the good Catholics about me from the heavy debt upon it, I shall cry out, with holy Simeon—"Now, O Lord, thou mayest dismiss thy servant in peace!"

There is nothing but poverty and destitution hereabout. More than forty years ago it was felt that a new chapel was badly wanted. To erect one, effort after effort was made, and made in vain. Bad times came, famine and emigration succeeded, and the works at the new chapel had to be discontinued—given up. Meantime, the old chapel was kept together by patching and repairing—an expensive and a bootless task. Five years ago au attempt was made to erect a new chapel, when obstacles arose of an overwhelming kind. Born down by toil, anxiety, and that killing sense of disappointment when one has a darling object before him, I sank under a terrible malady. All hopes of the new chapel lay, like myself, paralysed and stricken down. But God has been good. At the close of the terrible year of 1879, and when I lay on my bed, unable to speak, unable to raise a hand, the monks would come to me and whisper hopes of success and inspire confidence. With the approbation of the Bishop, they collected up and down; but when poverty, like a nightmare brooded over the country, and not a penny was to be got, two of them committed themselves to the winds and waves to collect in America what they could not expect at home. Whatever remittances they could send, and whatever little credit I could procure, kept the works going on, till now they are fit for the roofing—leaving of course a considerable debt, which I hope my friends will enable me to liquidate.

I gratefully acknowledge my obligations to the exiles of Erin; and I fondly trust that those still left here to guard the old churchyards, and to look after the beautiful things of the old faith in the old land, will, in honour of St. Bridget and St Patrick lift up their hearts and aid me generously in the high endeavour I am making—my last great undertaking in life—to finish a church not unworthy of the ancient fame and glory of the parish of Killbride. The hearts of Irishmen, wherever they are under the sun, are smitten with the same love with which the Royal Prophet loved the glory of God's house.

I am yours, &c.
J Corcoran, P.P.

Dr. Jayne's ALTERATIVE

This valuable preparation combines all the medicinal virtues of those articles which long experience has proved to possess the most safe and efficient alterative and desobstruent properties, procuring for it a world-wide reputation as

THE GREAT PURIFIER OF THE BLOOD AND RENOVATOR OF THE SYSTEM.

Whenever the economy of the life-giving fluid has been vitated, it should be immediately called to help. It drives out pernicious humours, stimulates the absorbents, overcomes the obstinate state of the pores of the skin, regenerates the disordered organism, reestablishes health and spirits, and brings back a bright colour to the pal id complexion.

Thousands of testimonials establish its immense success for curing Scrofula or King's Evil, Skin and Mareurial diseases, Boils, Carbuncles and Ulcers, Dropsy and Dropsical Swellings, Enlargement and Ulceration of the Bones, Joints, Glands or Ligaments, Erysipelas, Epilepsy, Gout, Rheumatism and all diseases originating from a depraved and imperfect state of the Blood.

Dr. JAYNE'S ALTERATIVE is compounded from carefully selected drugs, free from all mineral admixtures and may be Safely Relied on by all needing a medicine to build up the system, cleanse the blood and restore the healthy action of the secretive organs.

El Jueves 5 de Mayo,
A las 2 p m.

Remataremos a la mas alta postura y dinero de contado, y siempre se excoda de la base fijada para el remate, por orden terminante de su dueno y por liquidacion, el campo arriba mencionado, conteniendo una poblacion principal compuesto de un gran edificio de material con muchas piezas, un gran corredor con columnas de fierro, pozo de balde, arboles etc, En esta poblacion hay una mojada; ademas, hay cuatro puestos mas con mojadas y un rodeo y pastoreo de 500 a 600 vacas.

El campo esta dividido en dos potreros; uno de 621 cuadras donde esta la poblacion principal y dos puestos mas que es donde pastorean los animales vacunos; es un lindo potrero para invernada. El otro potrero se compone de 179 cuadras y hay en el dos puestos con ovejas.

El alambrado de todo el campo es de primer orden, con buenos postes de handubay, barrillas de pino de tea una parte y lo demas barrilla de alambre torcido de cuatro hilos, el alambrado es todo de acero clase superior, recientemente construido en una estension de 18,000 vs lineales, habiendo costado $126,000.

El ferro carril del Sud cruza el campo en una punta y viene a quedar exactamente a minutos de camino entre las estaciones de Ranchos y Villanueva, punto indicado para una estacion intermedia, que haciendo una solicitud a la empresa la concederia, lo que, a no dudarlo, seria una ventaja.

Ademas, por la proximidad a la ciudad, puede este campo destinarse ventajosamente para la labranza, pudiendo de esta manera obtener un arrendamiento que no bajara de $300 por cuadra, que es el precio corriente que hoy se paga para chacras, obteniendose asi $240,000 anuales.

Este campo tiene actualmente contrata de arrendamiento que le faltan 3 anos y 8 meses.

Titulos inmejorables.

Nota—El campo esta alambrado igualmente por los costados de la via ferrea, asi es que el tren no puede hacer dano a las haciendas.

Otra—Los Jueves y Domingos habra una volanta en la casa de negocio de la estacion Villanueva para conducir gratis a las personas a que deseen examinar el campo.

El Miercoles 4 de Mayo 1881
A las 12 en punto

Remataremos a la mas alta postura y dinero de contado 6 importados de la afamada cabana de Bailleau Aine a fin de liberar los siguientes animales de raza.

11 Carneros de 16 meses
397, 322, 400, 369, 321, 315, 317, 313, 388 374, 382, 408, 409, 385.

39 Ovejas de 16 meses
437, 441, 477, 479, 440, 433, 463, 454, 435 443, 473, 452, 465, 448, 455, 467, 456, 437, 436 470, 460, 469, 468, 433, 450, 447, 431, 481, 467 451, 449, 476, 464, 471, 439, 474, 462, 453, 480

Cada animal lleva en la oreja izquierda el ano del nacimiento.

En cuanto a la clase y calidad de este envio hecho por el Sr Bailleau, puede reputarse como lo mas selecto que ha salido de aquella cabaña para este pais.

Por cartas que hemos recibido de nuestro socio actualmente en Europa y que tuvo ocasion de ver los animales comprados por el Sr Lezama, antes de salir nos dice que es la flor de lo que existia en la cabaña del Sr Bailleau Aine.

Nos escribia al mismo tiempo que habia enviado unas veintas borregas para un concurso, de las cuales con razon estaba orgulloso el anciano criador.

Los tipos de animales de esta tan celebre y renombrada cabaña que puede decirse ha terminado ya, es lo mas sobresaliente que existe en la rasa ovina.

Otra de las grandes ventajas que ofrece esta espedicion, es que tanto los carneros como las ovejas son animales nuevos, pues no tienen arriba de 17 meses de edad.

Sabido es que el origen de la cabaña Bailleau proviene desde su fundacion, con carneros y ovejas de la cabaña nacional de Rambouillet y que aquel senor a fuerza de contraccion e inteligencia durante mas de 40 años, llego a formar el magnifico tipo conocido bajo el nombre de su fundado.

Aconsejamos a nuestros criadores que aprovechen una ocasion que quizas sea la ultima que se les ofrece en cuanto a este origen, para hacerse de animales tan sobresalientes y que podran examinar desde el Lunes 2 de Mayo en nuestra casa Alsina 78.

A las 2 p.m.

Venderemos al contado por orden de su dueno 61 lotes numerados en los planos que ponemos en nuestro escritorio a disposicion de los Srs interesados desde el numero 1 al 63; sirviendonos de base para la venta la siguiente.

Para los lotes numeros 1 y 4 al 19, 10 m|c la vara cuadrada al contado; numeros del 20 al 49, 8 m|c vara cuadrada, y del 50 al 63, 6 pesos m|c vara cuadrada.

La base es baja pues debe tenerse en cuenta que en toda la calle Real de Flores nadie vende terrenos en esta condicion, toda la calle esta edificada, desde el 11 de Setiembre hasta la Floresta y los propietarios de esos edificios son personas pudientes que se muy difícil se deshagan de sus quintas de recreo.

Este es el unico terreno que queda sin edificar, por un frente del terreno pasa el tramway y por otro el ferro carril, habiendo lotes cuya proximidad a la Estancion es de una cuadra.

El gran boulevard que deslindara la Capital con la Provincia pasara a dos cuadras y sobre todo es ya un hecho que la Capital de la Provincia sera el adelantado pueblo de San Jose de Flores.
